## PROFILE

As an enthusiastic and evolving Front-end Developer, I am actively seeking opportunities to contribute my skills and creativity to a collaborative development team. I am particularly interested in joining a team where I can leverage my current project experience to craft intuitive and visually appealing user interfaces, while continuously expanding my skill set in the field of Front-end development With a strong foundation in REACT and JAVASCRIPT.

## PROJECT

### PORTFOLIO

- My portfolio represents who I am, and it showcases all of my projects.You can explore my projects through my portfolio.
- Creating my portfolio, I learned to manage React components and implement functionality using JavaScript. Furthermore, I gained a deeper understanding of state management and books, specifically using the useState hook for animating changes
- I used plain CSS (Vanilla CSS) for styling my portfolio because I wanted to further enhance my CSS skills and build a strong foundation in this area and implemented a feature for sending messages.
- I ensured that it is fully responsive. This project has helped me acquire the skills necessary to create a responsive portfolio.

## TECHNIQUES TO REDUCE ELECTRICITY BILL

- My website offers a comprehensive set of tips and strategies to help users affectively reduce their electricity bills using REACT IS. These tips cover a wide range of practical solutions to lower energy Consumption.
- I have developed a custom electricity bill calculator, demonstrating my expertise in building logies in JAVASCRIPT. This feature empowers users to calculate their electricity bills accurately.
- Users can easily visualize their electricity usage and charges through an interactive EB chart on my website.
- This project user-friendly on both desktop and mobile platforms
